

It is YOUR time to corner the Search Engine Market for your business! Your next customer is online searching for something. Internet searches continue to explode with an average of 63,000 internet searches per second on any given day. Your business must be ranking in Google with as many of your keywords on page 1 as possible as well as on all the Google maps, with posting on Google My Business every week. DIT Web Solutions is your partner to make this happen.

## LOCAL SEARCH ENGINE OPTIMIZATION (SEO) PACKAGE

- **5 Local Keyword SEO Package:** 5 of your keywords ranked on page 1 of GMB searches
- We will create a new Google Places Profile or optimize the current one.
- We will approve reviews provided and post them to the Google Profile, from different sources at different frequencies to keep them looking organic
- We will build citations (references to your business Name, Address, and Phone number – NAP) in local directories with the NAP given
- We will approve other reviews provided, and use these for posting on your business profile on the directories such as Yellow Pages, etc.
- Once a week Google My Business postings: this is a great way to show off your business in a unique way at the exact time a searcher is looking at your business online
